NATIONAL NEWSPAPER WEEK OCT. 13-19, 1963

The center of attraction for every member of the family is the newspaper! To each it gives a fresh, new look at the world in terms of his or her special interests, from comics for the small fry to business and sports news for Dad, to social news for Mother. To all, it is the most accurate and comprehensive source of knowledge about what's going on everywhere. It keeps the whole family in step with the ever-quickenning tempo of today's world. Yes, newspapers do make a difference in people's lives!

Weekly Newspapers, like ours, in small communities like ours, are what you might call documentary records of the lives of our citizens, from cradle to grave. They publish the birth announcements of our children, their first day at school, graduation, entry into college, engagements, marriages, entry into the business world and their progress thereafter.

And so it goes, on and on through the lives of our citizens. These are the characteristics of a weekly newspaper, some of which, even the large dailies overlook in their rush and hurry for predominance in big city life.

And yet, we wonder how many of our subscribers really appreciate the time and effort that goes into the assembling of a weekly newspaper.

We only hope that we will be able to continue to serve these subscribers in the best possible way.

DAIRY CATTLE HAS BIG SPOT AT FAIR

Dairy cattle showing will occupy an important place in this year's Mississippi State Fair to be held in Jackson, October 7-12, according to George B. Crain, superintendent of the dairy cattle division and extension dairyman of Mississippi State University.

The dairy cattle exhibited will consist of Guernsey, Holstein and Jersey breeds. There will be two divisions of the show, one for adults or breeders and the other for juniors. Dr. Clyde Rougeau of Lafayette, La., will judge the dairy cattle.

Special awards include those presented by the Mississippi Jersey Cattle Club, the Holstein-Friesian Association of America, the Mississippi Guernsey Breeders' Association, and the Mississippi Ayrshire Club. There are five cash awards in each class and hand-some trophies will be awarded 1st place winners by the American Dairy Association of Mississippi.

LAKESHORE AND CLERMONT HARBOR NEWS

By Aline (Pee Wee) Courregg HO-7-5806

Mr. and Mrs. Henry Kothmann and family had as their guests this past week Mr. Kothmann's sister and brother-in-law, Mr. and Mrs. Leonard J. Frantz of New Orleans.

While here the Frantz's were entertained in celebration of their 22nd wedding anniversary.

Fred Burson Jr., son of Mr. and Mrs. Fred Burson Sr. of Clermont Harbor who has been ill, was placed in isolation at the Hancock General Hospital this past week.

Everyone wishes him a speedy recovery and all hope to be seeing him up and around before long. I am sure he would appreciate some cards from his friends since he isn't allowed and visitors.

Little Miss Julie Necaise, daughter of Mr. and Mrs. George Necaise Jr. of Arabi and who is attending Arabi Elementary School, took part in a program put on by her

first grade. Julie's grandmother, Mrs. George Necaise Sr., of Lakeshore attended the program, but her mother, who has been put in a cast was unable to attend. Therefore Julie's teacher recorded the play and brought it to Mrs. Necaise's home so she would be able to hear her little daughter take part in her first big school activity.

Visiting Mrs. Eva Garcia of Clermont were her son and daughter-in-law, Mr. and Mrs. Judy Johnson and family of New Orleans.

Mr. and Mrs. Thomas McBride of Arabi spent this past weekend in their summer home in Clermont Harbor.

Spending Sunday in Clermont Harbor with their family were Mr. and Mrs. I. C. Williams and daughters Janet and Beverly of Plaquemine, Louisiana.

Happy birthday wishes are extended this week to Mr. Leroy Williams, who celebrated October 1, to Mrs. Oliver Saluque, who celebrated October 8, to Alice Rose Ladner, who will celebrate October 12, to Linda Sones, who

will celebrate October 11.

Related congratulations extended this week to Ray Sojain, who was born August 24. Mrs. Sojain is the former Joan Chapman of Mr. and Mrs. A. J. Sojain of Bay St. Louis.

SECOND BIRTHDAY

Donna Favre celebrated her second birthday Thursday with a party in the afternoon at her home. Her parents, Mr. and Mrs. C. Favre.

A doll cake iced in white and pink centered the table.

Games, ice cream and muffed muffins were served to the guests, Mrs. Favre, Mrs. John, Christine and the children, Billy, Bobby and Cheryl. Mrs. Favre and her husband, Mr. C. Favre, and Paul Craig, Bryan and Paul Colson, Kenneth and William Colson.

Assisting Mrs. Favre were the group were Mesdames Thomas, Watson Johnson, Laine, Horace Geoffrey and Colson.

THANKS

To The Voters of Hancock County:

I wish to extend my sincere heartfelt thanks to the voters of Hancock County. I am very grateful to the voters that supported me in the first and second primaries. I also want to thank the people that worked so hard for me in the special October 5th election.

I will always be grateful to the people of Hancock County that have supported me on the basis of my past record, both as a citizen and a public official. I have always enjoyed working with parents, teachers and the children in this county. I am proud that I have served the people twelve years as Supr. of Education.

Gratefully and respectfully yours,

CARROLL GARTIN TO ADDRESS FUND-RAISING EVENT IN JACKSON, OCT. 15

Mississippi Democrats, from every county in Mississippi, are looking forward to Tuesday, October 15, as the date of a statewide fund-raising dinner in the Mississippi Coliseum in Jackson, beginning at 7:30 o'clock p. m.

The theme of the meeting will be the unity of Mississippi Democrats as they marshal their forces under the leadership of Hon. Paul B. Johnson, Mississippi's Democratic gubernatorial nominee, and Hon. Carroll Gartin, Mississippi's Democratic nominee for Lieutenant Governor, to bury Republican scalawags in Mississippi for another hundred years.

Henry Harris, publisher of the West Point Daily Times Leader, will be master of ceremonies, and all Mississippi Democratic nominees for state and district offices, and for the Mississippi Senate and House of Representatives, whose names will appear on the November 5th general election ballot, will be presented. Gartin will speak to the gathering after which Governor Ross Barnett will introduce Johnson, who will deliver the keynote address.

All Mississippi Democrats are invited to attend this statewide fund-raising dinner at \$25.00 per plate. Tickets can be secured from Marvin E. Collum, Jr., Treasurer, P. O. Box 291, Jackson, Mississippi.

PRESBYTERIAN WOMEN MEET AT RUSSO HOME

Mrs. Walter Russo hosted the morning circle of the First Presbyterian Church at her home last Wednesday at 10 o'clock.

The meeting opened with the Lord's prayer, and Mrs. Edward Calvin, secretary-treasurer, read the minutes of the last meeting and gave the treasurer's report. Reports were also given by Mrs. Max Dossett, courtesy chairman; Mrs. Mack Canaga, educational chairman, and Mrs. John Landon, president of the Women of the church.

Mrs. Landon urged attendance at a meeting of the South Presbyterian in Biloxi October 8, and reminded everyone of the women's general meeting here October 16, which will feature an October book fair.

Mrs. Russo, chairman, welcomed two guests, Mrs. Edwin Ling and Mrs. Betty Green.

Members were also reminded to continue saving trading stamps for the pieces of additional China for the church.

An informative Bible study was led by Mrs. Carl Anderson Jr., as she introduced members to the Book of Psalms, which will be the topic for the coming year.

Others attending were Mesdames Norman Renshaw, Winthrop Baker, Fred Phillips, Harry Scharf and Harold Cook.

Betty Jo Hughes, second. Smocked pillows, Faye Necaise, first; Gail Pouncey, second; Claudette Lee, third. Pillow cases, Rhonda Switzer and Nancy Swords.

New Flavors Spark Tomato Juice

You can retain the sun-ripened goodness of this year's tomato crop if you will devote a few hours to making and canning fresh tomato juice. It will taste mighty good come winter.

High in vitamins, low in calories, tomato juice can cost you as little as 6 to 12 cents a quart. The cost depends upon the source of the tomatoes.

Tomato juice is an excellent substitute for sweet, bottled drinks for children. Let them play at mixing, making their own choice of seasoning—and they'll learn to love it. Tomato juice is a boon to weight watchers, too, for a cupful adds up to only 50 calories. Prepare your juice without seasoning, and store it away. When you plan to use it, take down a jar or two several hours in advance of serving time. That's the time to add the seasoning, or combination of seasonings, your favorite taste tantalizers—dill, garlic, herbs or sautes. Then put into the refrigerator to chill while the seasonings mellow. Be adventurous—try curry, chili powder, mint or sage. It's fun to experiment, and variety, too, adds spice.

Tomato juice is easy to make at home. One bushel (53 lbs.) of sound tomatoes will make 12 to 16 quarts of juice. The principles are simple—wash, rinse, drain, core and quarter red-ripe tomatoes. Simmer in covered kettle until soft, then pass through food mill or sieve to remove seeds and skins. Reheat juice almost to boiling and pour to within one quarter inch of the top of fruit jars. You may, if you like, add one teaspoon of salt to each quart. Put domes lids on jars, screw bands tight, and process in boiling water bath canner. Pints require 10 minutes, quarts 15 minutes.

ANNOUNCE BIRTH

THE WONDROUS LOBLOLLY PINE

The loblolly pine promises to play a dominant role in the future of Mississippi agriculture. It is already the most widely planted erosion-control species in North Mississippi and has no equal in the plant world for its effectiveness in healing gullies, stopping erosion, slowing water runoff, halting siltation of streams and preventing floods. All of these facts have been determined by research conducted

MARY MILLS GOLF TOURNAMENT NOVEMBER 14-17

OCEAN SPRINGS (Special) - The money winners in the Ladies Professional Golf Association Mickey Wright, Kathy Whitworth, Mary Lena Faulk, and Ruth Jensen, are among those signed to play in the Mary Mills Mississippi Gulf Coast Invitational Golf Tournament, November 14-17.

The 1963 tournament chairman is Charles "Chuck" Wynn, managing director of Gulf Hills Dude Ranch and Country Club at Ocean Springs, Miss., where the event will take place.

A record amount of \$15,000.00 prize money is the largest purse ever afforded in a LPGA tournament and is attracting leading women golfers from throughout the country.

The tournament is named after Mary Mills who recently won the 1963 Women's National Open Golf Championship with a 72 hole score of 289.

The site of the Mary Mills Invitational will rotate yearly between Mary Mills' home course at Gulf Hills, where she is the ladies golf professional, and the Broadwater and Edgewater golf courses.

Schedule of events include: Tuesday, November 12 - practice round; Wednesday, November 13 - Swing Clinic; Thursday, November 14 - Pro-Am Tournament; Friday, November 15 - First round of tournament; Saturday, November 16 - Second round of tournament; Sunday, November 17 - Final round of tournament.

Entry fee of the Ladies Pro-Am is \$20, with a limit handicap of 18. Entry fee for Pro-Am and the Mississippi Gulf Coast Invitational Tournament is \$25.00 with a limit handicap of 8.

PROBLEMS FACE NEW OIL CROPS IN MISSISSIPPI

STATE COLLEGE - New oil seed crops for Mississippi, and especially the Delta, are often talked about and some have been tested quite extensively. Research reports indicate, however, that none seem to offer any real opportunity at this time.

T. W. Culp, USDA agronomist, has been involved in testing several of these crops at Delta Branch Experiment Station at Stoneville. He has recently summarized results on the crops listed below.

Safflower makes an excellent edible oil and brings a good price but several years of testing has shown the crop is not adapted to Delta conditions.

Acceptable stands of safflower are hard to get because of root rot throughout the growing season. Surviving plants produce inferior seed and low yields.

Sesame offers a little more promise. Research has shown that excellent yields may be produced during most years. The problem is present varieties cannot be satisfactorily harvested by mechanical means in this area of high humidity and rainfall. Until more

GOVERNMENT GRAIN AVAILABLE AS FEED WHERE NEEDED

Farmers in Hancock County who are eligible for such assistance may buy the CCC-owned feed grains if they can show need for the grain because they do not have sufficient feed for their livestock and they are unable to obtain it through normal channels of trade without undue financial hardship.

The Office Manager explained that, under severe drought, flood, or similar conditions, the Secretary of Agriculture is authorized by law to make Commodity Credit Corporation-owned feed grains available to eligible farmers in affected areas at specified rates of payment. For assistance in preserving and maintaining foundation herd of cattle - including producing dairy cattle, sheep, and goats - grain may be made available at not less than 75 percent of the feed grain support price; for other eligible livestock, the rate is 100 percent of the support price.

CHICAGO FIRM AWARDED CONTRACT FOR SHEET STEEL PILING

The Inland Steel Company of Chicago has been awarded an order for 2,510,787 pounds of sheet steel piling to be used in constructing a navigation lock connecting the East Pearl River with a complex of canals serving test sites at NASA's Mississippi Test Center, where space boosters and engines will be tested.

The \$184,827.49 award was made by the U. S. Army Corps of Engineers, real estate, engineering and construction agent for the civilian space agency, on the basis of competitive bids opened at Mobile on September 20.

Delivery will be made between December 1 and 15 by barge directly to the site.

Colonel D. A. Raymond, U. S. Army District Engineer at Mobile, Alabama, announced today the award of two contracts for construction of the Mississippi Test Operations in Hancock County, Mississippi for the George C. Marshall Space Flight Center of the National Aeronautics and Space Administration.

A \$289,268 contract was awarded to the F. B. Bear Construction Company of Pensacola, Florida, for the construction of a telephone building, which will house the private business exchange for the entire installation, teletype writers, facsimile transmitting and receiving equipment, and a cryptographic center. The PBX will have a capacity of 2,000 internal telephone lines with a 200-line tie to the public carrier. Work is expected to begin shortly and to be completed by the middle of August 1964.

A second contract amounting to \$345,705.30 was awarded to the William A. Smith Construction Co., Inc. of Houston, Texas, for the construction of 2.2 miles of railroad track and a classification yard. The firm will construct a railroad track from the end of the recently completed Southern Railway spur to the service area, a classification yard at the terminal having six spur tracks, and a floodlighting system to illuminate the yard. Work is expected to begin shortly and to be completed in May 1964.

The Corps of Engineers sent advance notices soliciting bids on the two jobs to a total of 2593 contractors and material suppliers, furnished plans and specifications on request to a total of 61 prime contractors and 112 subcontractors and material suppliers, and received a total of 15 bids. Both contracts were set aside for award to small business firms.

HUNTSVILLE, Ala. - Imagine a housewife having to fill out a multi-copy requisition detailing specifications and quality on each item she purchases in a supermarket. That is, after she obtains the signature of the "chief" of the family.

Officials of the NASA-Marshall Space Flight Center here feel that they can expedite the space business by adopting some practices of the efficient little housewife.

After all, she meets all sorts of deadlines and crises each day. She isn't trying to get to the moon, of course, but things do hit the ceiling periodically.

As a result, space workers in one large laboratory now "shop" for items by plucking components from shelves and placing them in the same kind of push cart a housewife uses in the local supermarket.

Instead of a paper shuffling operation, the "shopper" uses a charge plate for each space "program" his section is responsible for.

Fishing Kitchen

With the pleasant weather over the past week fish were striking rather good on the bridges and up Jordan River. Large white trout and ground mullet or channel mullet predominated. Some specks were caught but not too large. White trout are good eating when cooked as soon as caught. Channel mullets are a firmer fish and are good after being frozen. Fresh water fish weren't doing so good. Seemed like those east and south east winds and high tides slowed them down quite a bit. Should get better when troling begins.

Mullets have been in by the thousands according to Elliott Casanova, who said he caught two sacks last Wednesday night. Mullet are another good eating fish and are best when they are still kicking and eaten with hot French bread.

Bill Witter and George Heitzmann reported catching some nice specks and red fish down Heron Bay way. Bill said they were hitting fairly well. He came over from New Orleans and goes fishing whenever he can.

Red Kimmel and professor Don Caldwell caught some nice speckles last week. Red said they had their best luck in Caldwell's Bend in the big cutoff. They were using dead bait.

Jack Seuzeneau has opened his bar on Railroad Avenue in what was originally known as the L & N Bar. The place has been completely renovated and Jack will be quite busy, flying, fishing and catering to his friends and old fishing buddies. Poppa George will be pinch hitting at times for Jack.

According to an article appearing in the Times-Picayune this week hunters should be glad to know that sales of hunting licenses for the 1963-64 hunting season

will break all records and reach an all-time high, predicts L. D. Young, Jr., director of the Louisiana Wildlife and Fisheries Commission.

Young said that sales of basic hunting licenses for the 1962-63 season numbered 280,862. There were also 1,814 nonresident trip licenses and 69,470 big game licenses sold.

This marked an increase over 1961-62 when the sale of basic hunting licenses was 247,227.

Young expressed the belief that the sale of big game licenses would continue to grow and that this would be reflected in final figures for this season.

"A long-range program of stocking suitable habitat with deer live-trapped from overpopulated areas has greatly widened the deer range in Louisiana," said Young.

Young cited a more liberalized duck hunting season this year.

S. S. Fayard who loves fishing and hunting says he is looking forward to doing both when the cooler weather sets in.

M. Okrasinski and wife of Baltimore, Md., are here visiting Mrs. L. Capdepon his sister-in-law. They have visited the Bay for the past 10 years and both like fishing. This week they reported catching different kinds of fish near the R. R. Bridge. We learned something new from Mr. Okrasinski. He told us of using peeler crabs just before the shedding stage for bait during the summer months. This bait he said is excellent for catching yellow perch, blue fish, white perch, pike, black bass and flounders.

Only the white meat is used. The best way to eat hard crabs is by steaming them, he claims.

Bob Von Ehren and George Bernos are fishing buddies they do most of their fishing during the winter time. Bob told us of another new bait for catching perch and green trout. When the Golden Rod dies a knot is found on each stalk about the size of a bead which contains a live white worm. Sounds possible. No chance of catching any favever from the dead plants, he said.

Jack Garriga, Harry Favre and Red Reinike caught some nice green trout and perch up Pearl River way last weekend. Red said they were plentiful and were fighting mad.

Johnny Spence of Harrison Road is looking forward to his annual vacation in about two weeks. He

has everything ready and the fish had better look out. He will be after them.

Sgt. Norman Vaughn and son Richard are spending two weeks at the Bay and are putting in a lot of time catching fish. They are out most every day. The Sgt. expects to retire soon and of course will make his home here.

It's good news to learn that Roy Barker will move his fishing camp from Logtown to Pearlton.

Roy operates a real camp with boats and motors for rent as well as taking care of most wants of fishermen. Will be seeing you Roy.

Heard from Wop Glover this week. Now that the first part of the dove season is over he will get back to fishing until other seasons open. He got his share of doves he said.

Never too early - Avoid the last minute rush. It is not a bit too early to buy your deer and turkey tags.

Last year many hunters put off buying their deer and turkey tags to the last minute and many license agents sold out of the tags. Be sure and pick your tags up early and then have them when you want them.

Most people think of the muskrat - like nutria as nothing but a pest or predator. The marsh animal which was imported to the United States for their fur never did create any interest in the fur market and they have become a control problem.

The Agricultural Experiment Station, Louisiana State University and Agricultural and Mechanical College has prepared an attractive booklet on how to cook the animals. The new booklet, "Nutria for Home Use" may be obtained without charge from the Agricultural Experiment Station at Louisiana State University in Baton Rouge. Ask for Circular No. 77. For my part, "YOU" can eat them.

Speckle trout fishing out in the marshes is improving right along. With cooler weather this type fishing should be at its best.

Some catches have been made at Three Mile and Nine Mile Bayous and at Half Moon and Heron Pys. Flounders and red fish are being caught up Jordan River as well as specks and white trout. Some troling is paying off. Troling for green trout should start soon. Colder weather will help immensely.

The World Series didn't last long, but there was a lot of long faces on those who backed the Yankees.

Bay High Tigers have a good team this year. The game last week was a dilly. The new stadium is a sight to behold and is filled with local fans at each game. The band is doing a good job also.

Shrimping is improving right along. Fishermen don't seem to have any trouble getting bait. Better freeze some now - they will

COUNTY AGENT'S NOTES

O. O. SWORDS
County Agent

September is the big fall gardening month. Vegetables to plant this month for fall production include: mustard, collards, turnips, onions, radish, tender greens, beets, chard, Chinese cabbage, rape, kale, carrots, lettuce, parsley, rutabagas and spinach. Remember, vegetables grow more slowly during the cool fall weather and keep this in mind when planting.

INSECT CONTROL

Make your plans now to prevent cattle lice from heavily infesting your herd this winter. When lice are present in heavy numbers, they severely cut weight gain and milk production. Spraying cattle in the early fall will go a long way toward preventing a large buildup.

Systemic insecticides are also available that will also do a good job of lice control and control other parasites at the same time. Recharging the backrubber with a recommended material will also help keep down lice numbers, and will go a long way toward holding down numbers of hornflies at this season of year.

Check with your local county agent for a copy of the livestock insect control leaflet. Be sure and follow all restrictions and instructions on insecticide labels.

DAIRY FEEDING

In figuring your total feed needs, make sure that you allow plenty of hay. The small breeds need two and a half tons and the larger breeds three and a half provided hay is the only forage being stored.

One to one and a half tons per animal should be stored along with silage. This will allow 8 to 10 pounds of hay per day along with all the silage the cow will eat.

Quality hay is important as the higher the quality, the more the cow will eat and the more milk she will produce economically.

PASTURE MANAGEMENT

Start any time now spreading fertilizer on areas where you want clovers to grow. It is better to have fertilizer applied early, because many of the clovers come up after the first fall rains. If the plant food is available when the clovers come up then can grow and become established much more quickly.

Want to move the broomsedge out of your pastures and replace it with good grasses and clovers. Everyone does! Fertilizing is the only way to start the fertilizer on the way out.

WINTERING BEEF CATTLE

Wintering beef cattle is a much less costly operation when animals go into the winter season in good

get scarce soon and prices will go sky high. 85c per pound for frozen shrimp makes fishing rather expensive.

Winners of the second annual Gen. D. O. Hickey Memorial Tournament held Sept. 29th at Pass Christian Golf Course were for the men; 1st Gordon Murdock; 2nd Joe Comeaux, and 3rd E. J. Willis. For the ladies: 1st, Mrs. A. Flethrich, second Mrs. P. Glass and third Mrs. M. Amacker. A number of members participated and the tourney was a grand success.

LOCAL SPORTSMAN

DR. EMILE BERTUCCI

Doc as he is better known is an ardent fisherman and hunter. He recently returned from a trip to Honolulu, in Hawaii where he did some skin diving for the first time. It's a wonderful sport, he said. He brought us some Urchin found on the ocean bottom. They are called Pencil Urchin, various types and a prized souvenir. Doc loves his fly fishing and is not bad at catching speckles and deep sea fish. The only thing he claims is that he hasn't time to fish as much as he would like to. Doc is a busy man at St. Bernard General Hospital at Chalmette, La. which he owns. He has a summer home at Fenton. A swell guy to know.

In planning your feeding program for the winter, do not forget that the animals need some supplemental protein.

Nice Things Happen to Systematic Savers

Ever notice how it is with some families? They always seem to have the money to go off on the most exciting vacation trips, buy and furnish the nicest homes, give their children the best educations. Often the answer is not to be found in the size of their income, but in what they DO with it! By systematically saving part of it, they manage to have "what it takes" to enjoy the best things of life. If they save here (as many do) where their money earns interest.

BAY HIGH TIGERS
SCORE FIFTH
STRAIGHT VICTORY

Bay High Tigers chalked up their fifth victory of the season when they defeated the Harrison Central Rebels 39-20 in a Gulf Coast Conference football contest Friday night. It was the first loss for Harrison Central compared to four victories.

The Tigers scored a touchdown in the first quarter, three in the second, and one each in the final two periods, while the Red Rebels scored single touchdowns in the first, second and fourth quarters.

The crowd that turned out for the homecoming event was reported to be the largest ever to witness a Bay High game.

Prior to the game, homecoming queen Sandra Williams and her court, who were escorted on the field by Chas. Smith, were introduced by Superintendent of City Schools J. D. McCullough, who presented the queen with a bouquet of red roses. The queen, who was crowned by Mayor John A. Seaford, and her court were met in the center of the field by their fathers who escorted them to their seats of honor.

Miss Williams wore an off white light wool suit with black accessories.

Senior maid, Charlotte Ladner, selected Chuck Breath, who trimmed with small fur collar and black accessories; Melva Lee Luke, junior, a shrimp-colored light wool suit, matching hat and brown accessories; Terry Gaudet, sophomore, grey suit and red accessories and Pat Miller, freshman, blue suit and matching accessories. They each wore a yellow mum corsage trimmed with blue.

Bay High band, entertained at the game and Henry Weitzmann and his band furnished music for the dance at the school gymnasium which climaxed homecoming activities.

MISS. PATROL
REPORTS HIGHWAY
ACCIDENT SUNDAY

Personal injuries and property damage were reported by the Mississippi Highway Patrol in a traffic accident Sunday.

State Ptn. Frank Blanton reported Hildred L. Wilde of Huntsville, Ala., sustained facial injuries in a collision eight miles west of Bay St. Louis on U. S. Highway 90. He was brought to Hancock General Hospital and was released following treatment.

Blanton identified the second driver as Henry Hall of Vandenberg Air Force Base, Calif. Total damage to the vehicles was estimated at \$450.

State Ptn. William P. Kenny reported a Pearlington resident was injured at 6 a. m. Friday when a truck jackknifed into the path of her automobile on U. S. Highway 90 about three miles west of Bay St. Louis.

According to Kenny, Mrs. Lillian M. McCarty was taken to Hancock General Hospital for treatment of head lacerations and possible injuries of the neck and back.

Kenny said the driver of the truck, identified as Charles E. Wast of Fort Lauderdale, Fla., claimed the brakes locked on the truck as it was slowing down.

Damages were estimated at \$1,000 to the McCarty vehicle and at \$500 to the truck.

SOIL
CONSERVATION
NEWS

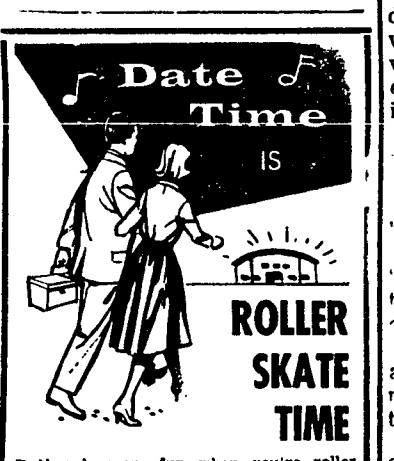

As soon as the first good rain settled the dust in our fields, Mississippi hunters will begin to smell birds in the air. Hunters will also perk up, and the Mississippi farmers who are developing quail shooting areas will oil the hinges on the front gate. Because quail season is now open on Mississippi recreational farms.

In Hancock County, according to Hugh Sanford, work unit conservationist, Soil Conservation Service, Bay St. Louis, Miss., at least four farmers have opened their land to commercial hunting.

Among them are Chester Lee, Leetown; Leon Davis, Matlap; L. L. Fletcher, Texas Flat Road; C. P. Slay, Flatport.

"We're not limited to regular quail season," said J. R. Wade of Grace, Mississippi, Issaquena County Soil Conservation District Farmer-Cooperator, whose customers come from Greenville, Vicksburg, Jackson and other central Mississippi areas.

"We like to get birds in the field in September for hunting during October. If they're released one or two weeks prior to shooting, they're field conditioned. They fly better and respond better. From September on through December there's good hunting here. Hunters know they can
